

BESTCOMM
NETWORKS, INC.

WHY CHOOSE BESTCOMM?

There are a variety of reasons why you should select BestComm as your PBX/Internet/Security systems solutions provider. In business since 1994, BestComm is not only an exclusive certified dealer of Mitel Systems, but also the endorsed vendor of the world's largest hotel chain, Best Western. Staffed by a team of certified technicians, who have an intimate understanding of the importance of **'guest satisfaction,'** BestComm specializes in the design, implementation, integration and support of PBX, voice mail, call accounting, internet, local area network and security systems.

With more than 2,500 systems installed from Alaska to the Caribbean and from Newfoundland to Hawaii, BestComm provides state-of-the-art IP-based PBX systems and cost-effective business class high-speed internet systems to hotels - both national brands and independents.

We also design and implement various enterprise applications, including VoIP, call centers, local area networks, multi-site voice & data networks, and mobility solutions for dynamic enterprise environments.

BestComm offers a wide range of services including local area network support, remote maintenance and troubleshooting services, hardware replacement support, 24/7 guest support, home page redirect services and e-mail relay with anti-virus and spam control services.

BestComm's wide array of internet solutions is designed to accommodate any building infrastructure from pre-existing telephone wiring to a fiber optic cable plant. Our Network Engineers have the experience and resources to design and implement a local area network or high-speed internet access system in virtually any building infrastructure. Let BestComm design the best suited network for your business needs whether utilizing wireless, fiber or pre-existing telephone wiring.

In order to address the rise in safety and security risks, BestComm has expanded to include state-of-the-art Surveillance/Security Systems, which can be customized to accommodate each and every business' particular needs. From motion-activated infrared high definition cameras to multi-channel networked DVRs to remote system access & control, BestComm has the solution for your needs.

BestComm is your 'one stop shop' solution for all your communications, data and security system needs. Our most fundamental goal is **'guest satisfaction'** and that translates into ensuring a high quality guest-user experience with every customer-to-technology interaction, which in turn, aides with guest retention and improvement with the average daily rate.
